

THE INDEX

The Pacer TrendpilotTM International Index (USD) (the “**Index**”) was created by Index Design Group (the “**Index Sponsor**”).

The Index uses an objective, rules-based methodology to implement a systematic trend-following strategy that directs the Index’s exposure to either 100% S&P Developed Ex-U.S. LargeCap Index, 50% S&P Developed Ex-U.S. LargeCap Index and 50% S&P US Treasury Bill 0-3 Month Index, or 100% S&P US Treasury Bill 0-3 Month Index as of the most recent weekly auction rate.

When the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index is above its 200 business day simple moving average for five consecutive business days the Index will track 100% S&P Developed Ex-U.S. LargeCap Index. When the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index falls below its 200 business day simple moving average for five consecutive business days the first signal occurs. This indicates a negative trend has been established and the Index will track 50% S&P Developed Ex-U.S. LargeCap Index and 50% S&P US Treasury Bill 0-3 Month Index. A second signal is established when the direction of the simple moving average changes from positive to negative. Confirmation of the second signal is determined when the most recent closing value of the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index 200 business day simple moving average falls below its closing value from 5 days prior. When the second signal is confirmed the Index will track 100% S&P US Treasury Bill 0-3 Month Index. Once the Index is tracking 100% S&P US Treasury Bill 0-3 Month Index will have no exposure to the S&P Developed Ex-U.S. LargeCap Index until the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index is above its 200 business day simple moving average for 5 consecutive business days. When this positive trend is established the Index will track 100% S&P Developed Ex-U.S. LargeCap Index .

In the event the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index closes 20% above or 20% below its 200-day simple moving average, the Index will change exposures effective at the end of the following business day to 50% S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index and 50% U.S. Treasury Bills. This new exposure (the “Special Exposure”) will remain in place until the traditional rules trigger a new exposure change. For example, if the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index closes 20% above its 200-day simple moving average, the Index will move to the Special Exposure of 50% S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index and 50% U.S. Treasury Bills. In order for the Special Exposure to be nullified, the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index would need to close below its moving average for 5 consecutive trading days. This would then revert the index back to its normal ruleset.

When the Index changes exposure, the change will be effective on the second business day. The Index aims to mitigate, to some extent, the volatility of the S&P Developed Ex-U.S. LargeCap Index by tracking the S&P US Treasury Bill 0-3 Month Index (instead of the S&P Developed Ex-U.S. LargeCap Index) when the S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index is in a negative trend.

It is possible for both negative trends to occur at the same time. When this happens the index will go from tracking 100% S&P Developed Ex-U.S. LargeCap Index to tracking 100% S&P US Treasury Bill 0-3 Month Index.

The Pacer TrendpilotTM International Index will use two versions of the S&P Developed Ex-U.S. LargeCap Index. To determine the signal the Index will use the Local Currency version of the S&P Developed Ex-U.S. LargeCap Total Return Index, while the return will be calculated based off the US Dollar version of the S&P Developed Ex-U.S. LargeCap Index.

Simple Moving Average

A simple, or arithmetic, moving average that is calculated by adding the closing price of the security for a number of time periods and then dividing this total by the number of time periods. Short-term averages respond quickly to changes in the price of the underlying, while long-term averages are slow to react.

The S&P Developed Ex-U.S. LargeCap Index

The S&P Developed Ex-U.S. LargeCap comprises the stocks representing the top 70% of float-adjusted market cap in each developed country. It is a subset of the S&P Global BMI, a comprehensive, rules-based index measuring global stock market performance.

The Index, and consequently the Fund, may stay in any of its three possible positions for an extended period of time. As described below, the Index will change its position based on the following indicators, and each change will become effective on the second business day after the indicator for the change is triggered.

The S&P U.S. Treasury Bill 0-3 Month Index

The S&P U.S. Treasury Bill 0-3 Month Index is designed to act as a US dollar-denominated cash position. The S&P U.S. Treasury Bill 0-3 Month Index is designed to measure the performance of U.S. Treasury bills maturing in 0 to 3 months.

Currency versions, calculation frequency, desired ticker, name and description.

1. Price Return

- a. Index Name = Pacer Trendpilot International Index
- b. EOD or Real-time? Real-time
- c. Desired Ticker (8 character max) = PTIN
- d. Index Description (for BBG it can only be 300 characters including spaces) = The Pacer Trendpilot International Index utilizes a systematic trend-following strategy that provides exposure to either the S&P Developed Ex-U.S. LargeCap Index, the S&P U.S. Treasury Bill 0-3 Month Index, or 50 percent of each, depending on the relative performance of the S&P Developed Ex-U.S. LargeCap S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index on a simple historical, 200-day moving average.
- e. Currency = USD
- f. Hedged PR, if so hedged from what current into what currency (please note for hedged indices we need to know points i-iv specific for the hedged level too)? Not Hedged

2. Total Return

- a. Index Name = Pacer Trendpilot International Total Return Index
- b. EOD or Real-time? Real-time
- c. Desired Ticker (8 character max) = PTINTR
- d. Index Description (for BBG it can only be 300 characters including spaces) = The Pacer Trendpilot International Index utilizes a systematic trend-following strategy that provides exposure to either the S&P Developed Ex-U.S. LargeCap Index, the S&P U.S. Treasury Bill 0-3 Month Index, or 50 percent of each, depending on the relative performance of the S&P Developed Ex-U.S. LargeCap S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index on a simple historical, 200-day moving average.
- e. Currency = USD
- f. Hedged TR, if so hedged from what current into what currency (please note for hedged indices we need to know points i-iv specific for the hedged level too)? Not Hedged

3. Net Total Return

- a. Index Name = Pacer Large Cap Trendpilot Net Tax Index

- b. EOD or Real-time? EOD
- c. Desired Ticker (8 character max) = PTINNT
- d. Index Description (for BBG it can only be 300 characters including spaces) = The Pacer Trendpilot International Index utilizes a systematic trend-following strategy that provides exposure to either the S&P Developed Ex-U.S. LargeCap Index, the S&P U.S. Treasury Bill 0-3 Month Index, or 50 percent of each, depending on the relative performance of the S&P Developed Ex-U.S. LargeCap S&P Developed Ex-U.S. LargeCap Total Return Local Currency Index on a simple historical, 200-day moving average.
- e. Hedged NTR, if so hedged from what current into what currency (please note for hedged indices we need to know points i-iv specific for the hedged level too)? Not Hedged
- f. Withholding Tax (WHT)
 - i. Follow S&P DJI's Standard WHT rates. In S&P Dow Jones Indices' context, this refers to the tax that non-residents are subject to, when the country in which the company paying the dividends is incorporated is not where the shareholder resides. In most countries, domestic shareholders are not required to pay this tax. Tax treaties between countries may reduce the amount of withholding tax required. Visit <http://us.spindices.com/resource-center/index-policies/> to view the latest withholding tax rates by markets.

Index Purpose

1. Product

History

1. Length of history to be calculated by SPDJI: 18 years
2. Calculation Start Date: 12/31/1999
3. Base Value: 100

Index Holiday Schedule

1. Exchange Holidays - the index will be calculated every trading day if at least one component is open for trading. If all components' exchanges are closed, the index will not be calculated.

Holiday Exception

- 1) In the event Thursday is a US trading holiday, the review will be conducted on the next US trading day.
In the event Monday is a US trading holiday, the Index changes will become effective on the next US trading day.

Index Rebalance

The Index employs an equal-weighted methodology and will be set to equal weighted at the Index launch. At each weekly Evaluation, the removed Index Security will be replaced at the same weight as the new Index Security.

If the weight of any individual security deviates by more than 20% from a target equal weight percentage, the Index will undergo a rebalance back to equal weight at the next Weekly Evaluation.

Detailed Calculation of Index Level

$$I_t = I_{t-1} \times [Z_{t-2} \times PTER_t + (1 - Z_{t-2}) \times CR_t]$$

Where $PTER_t = \frac{PTE_t}{PTE_{t-1}}$

And $CR_t = \frac{CIL_t}{CIL_{t-1}}$

$$Z_t = \begin{cases} 1 & \text{if, for all } B = 4,3,2,1,0, PTE_{t-B} > PTEMA_{t-B} \\ 0.5 & \text{if, for all } B = 4,3,2,1,0, PTE_{t-B} < PTEMA_{t-B}, \text{ and } PTEMA_t > PTEMA_{t-5}, \text{ and } Z_{t-1} \neq 0 \\ & \text{or if } \left| \frac{PTE_{t-2}}{PTEMA_{t-2}} - 1 \right| \geq 20\% \\ 0 & \text{if, for all } B = 4,3,2,1,0, PTE_{t-B} < PTEMA_{t-B}, \text{ and } PTEMA_t < PTEMA_{t-5} \\ Z_{t-1} & \text{Otherwise} \end{cases}$$

$$PTEMA_t = \frac{1}{200} \times \sum_{t-199}^t PTE_t$$

And:

I_t = the Index Level on Index business day t, where on the Index Base Date, the Index Base Value is 100.

Z_t = the value of the trend indicator for Index business day t (with a value of “1” indicating that the Reference Index Trend is positive for such Index business day, a value of “0.5” indicating that the Reference Index Trend is negative for such Index business day, a value of “0” indicating that the Reference Index Trend is negative for such Index business day, and a value of “ Z_{t-1} ” indicating that the Reference Index Trend is the same as the immediately preceding Index business day).

$PTER_t$ = the return on the The S&P Developed Ex-U.S. LargeCap Index for Index business day t.

CR_t = Return of cash index for Index business day t.

CIL_t = The index level of the Cash Index on day t

PTE_t = the Reference Index Closing Level on Index business day t.

$PTEMA_t$ = the Reference Index Simple Moving Average for Index business day t.

Reference Index: The S&P Developed Ex-U.S. LargeCap TR (Local Currency)

Tracking Index: Pacer Trendpilot International Index which allocates between the S&P Developed Ex-U.S. LargeCap Index and the S&P US Treasury Bill 0-3 Month Index

Index Pricing Index: Pacer Trendpilot International Total Return Local Currency Index which allocated between the S&P Developed Ex-U.S. LargeCap TR (USD) and the S&P US Treasury Bill 0-3 Month Index.

Cash Index: S&P US Treasury Bill 0-3 Month Index

Index Calculation Agent

S&P Dow Jones Indices or another party designated by the Index Sponsor (as defined below), will act as the calculation agent for the Index (the “**Index calculation agent**”) and will be responsible for calculating the level of the Index using the Index Methodology published by the Index Sponsor. The Index Sponsor will be the final authority on the Index and the interpretation of the Index Methodology.

The Index calculation agent will calculate the Index Level for each Index business day. The Index Level will be displayed on Bloomberg page “X” (or on any successor page) by no later than 6:00 p.m. (New York City time) on each Index business day. Intraday Index levels will be published by the Index calculation agent via the BATS Exchange under ticker symbol “PTIN” The Index Level will not be published on any day on which the Index Level is not calculated, whether because such day is a disrupted day (as defined under “—Index Disruption Events” below) or otherwise. All numerical values for the Index will be rounded to fifteen decimal places.

In the event that the Index calculation agent or the Index Sponsor determines that a material error has occurred in the calculation of the Index, the Index calculation agent, having consulted, or having been consulted by, the Index Sponsor, will endeavor to correct such error on a date agreed to by the Index Sponsor. If a material error is corrected, the Index Sponsor will apply the correction from the relevant date forward.

Trendpilot™ is a registered trademark of IDG. IDG owns all intellectual property rights to the Index and this description of the Index. This description of the Index has been supplied by IDG. Any use of any intellectual property rights must be with the consent of IDG.

Index Disruption Events

If, in the opinion of the Index Sponsor, any Index business day is a disrupted day (as defined below), the Index Level will not be published on such Index business day and will instead be calculated and published by the Index calculation agent on the next succeeding Index business day that is not a disrupted day, as determined by the Index Sponsor in good faith and subject to the index disruption fallbacks described under “—Index Disruption Fallbacks” below.

A “**disrupted day**” means any Index business day on which:

- any Exchange fails to open for trading during its regular trading session;
- an index disruption event (as defined below) occurs; or
- an Index adjustment event (as defined under “—Index Adjustment Events” below) occurs.

An “**index disruption event**” means the occurrence or existence of any of the following events if, as determined by the Index Sponsor, it has a material impact on the Index:

- it becomes impossible, on a certain Index business day, to obtain a closing level or any other price level for any component of, or instrument that is referenced by, the Index (a “**price disruption**”);
- any suspension of, or limitation imposed on, trading by any Exchange or otherwise, and whether by reason of price movements exceeding limits permitted by such Exchange or otherwise (a “**trading disruption**”);
- any event (other than an early closure, as defined below) during the one hour period that ends at the regularly scheduled close of trading for the securities comprising the Index that disrupts or impairs (as

determined by the Index calculation agent and/or Index Sponsor) the ability of market participants to effect transactions in, or obtain market values for, any component of or instrument that is referenced by the Index (an “**exchange disruption**”); or

- on any Index business day and in respect of any instrument or component referenced by the Index, the closure of any Exchange prior to its scheduled closing time, unless such earlier closing is announced by such Exchange at least one hour prior to the earlier of (a) the actual closing time for the regular trading session on such Exchange on such Index business day, and (b) the submission deadline for orders to be entered into the Exchange’s dealing system for execution on such Index business day (an “**early closure**”).

Index Adjustment Events

The Index Methodology may be adjusted, amended, deleted or otherwise altered by the Index Sponsor at any time, acting in good faith and with the consent of the Index calculation agent, if the Index is no longer calculable in accordance with the Index Methodology (any event or condition giving rise to the right to so adjust, amend, delete or alter the Index, an “**Index adjustment event**”). Such adjustments may include, but are not limited to, adjustments required for clarification or for minor or technical reasons (including, without limitation, to correct any manifest or proven error or to cure, correct or supplement any ambiguity or defective provision contained in the Index Methodology).

Index Disruption Fallbacks

If (a) five consecutive Index business days are disrupted days, or (b) the Index Sponsor determines that (i) there is a discontinuation in the publication of prices for any component of or instrument referenced by the Index, (ii) the use of any component of or instrument referenced by the Index has become prohibited, (iii) the sponsor of any component of or instrument referenced by the Index has changed the specifications of such instrument or component, (iv) any component of or instrument referenced by the Index is modified or changed in any other way (except for a previously announced modification), or (v) any component of or instrument referenced by the Index has been or is likely to become terminated, then the Index Sponsor will, in consultation with the Index calculation agent, have the right to:

- accept the closing level of any component of or instrument referenced by the Index published on any alternative price source;
- if no alternative price source is available, select a substantially similar component for the Index or instrument to which the Index can be linked;
- if no alternative price source or similar instrument or component is available, adjust, amend or otherwise alter this description of the Index; and
- if none of the foregoing will achieve the objective of the Index as set forth above, permanently cease to calculate and/or disseminate levels for the Index.

Termination of the Index

The Index Sponsor may, at any time and without notice, terminate publication of the Index and proceed to ask the Index calculation agent to cease the calculation and dissemination of the Index.

Change in Index Methodology

No assurance can be given that fiscal, market, regulatory, juridical, financial or other circumstances (including, without limitation, any changes to, or any suspension or termination of any components for which values must be determined in relation to the Index) will not arise that would, in the determination of the Index Sponsor, necessitate or make desirable a modification of, or change to, the Index Methodology.

Any change to, or modification of, the Index Methodology may be outside the technology employed by the Index calculation agent, and thus the Index calculation agent may not be able to calculate the Index following such change or modification. In such event the Index Sponsor may, in its sole and absolute discretion, appoint a successor Index calculation agent.

Disclaimer

Although the Index Sponsor obtains price and return data from sources that it considers reliable, for example for the Benchmark Index, the Index Sponsor will not independently verify such data, and neither does it guarantee the accuracy and/or completeness of any data included in this description of the Index, nor the accuracy of any Index Levels.

The Index Sponsor is under no obligation to advise any person or entity of any error in the Index (but may do so in its sole and absolute discretion). References to the Benchmark Index and the S&P U.S. Treasury Bill 0-3 Month Index are included only to describe the components upon which the Index is based. The Index is not in any way sponsored, endorsed or promoted by S&P Dow Jones Indices or any Exchange.

Background on the Index Components

Benchmark Index

We have derived all information contained in this index methodology regarding The Pacer Trendpilot Trendpilot Interanational Index and the S&P US Treasury Bill 0-3 Month Index (the “**Benchmark Index**”), including, without limitation, their make-up, method of calculation and changes in their components, from publicly available information. Such information reflects the policies of, and is subject to change by, S&P Dow Jones Indices.

The Benchmark Index is widely distributed under the ticker symbol (**SDSLU**).

Corporate Actions and Events

A Corporate ‘Action’ is an action on shareholders with a prescribed ex-date. The share price will be subject to an adjustment on the ex-date. The index will be adjusted in line with the ex-date.

A Corporate ‘Event’ is a reaction to company news (event) that may impact the index depending on the index rules. For example, a company announces a strategic shareholder is offering to sell their shares (secondary share offer) – this could result in a free float weighting change in the index.

For corporate actions, S&P rulings will be the default option. Pacer will also have the option to change these corporate action rules by notifying S&P 2 days in advance of the event on actions to take.

Full details of changes to constituent companies due to corporate actions and events can be accessed in the embedded excel attached.

SPDJI Custom Equity
Index questionnaire.›

Corporate action rules (see attached excel document)

Whenever PTIN is 100% or 50% exposed to S&P Developed x US Large Cap Index, the exposed portion will follow the parent index’s corporate actions treatment.

Options (click on cell A4 to see options):	Comments	
Option 1, Standard corporate actions treatment	Always follow the parent index corporate actions treatment (this requires matching all adds/drops & composition changes of the parent).	*Select approach (click on cell A4 to see options)

For corporate actions, S&P rulings will be the default option. Pacer will also have the option to change these corporate action rules by notifying S&P 2 days in advance of the event on actions to take.

License Agreement

S&P has entered into a non-transferable, non-exclusive license agreement granting IDG and certain of its affiliated or subsidiary companies, in exchange for a fee, the right to use the S&P Developed Ex-U.S. LargeCap Index, which is owned and published by S&P, in connection with certain securities, including the ETFs.

The license agreement between S&P and IDG provides that the following language must be set forth in all written materials including but not limited to; marketing material, prospectus, website, etc.

The ETFs are not sponsored, endorsed, sold or promoted by S&P, or any of their respective affiliates or their third party licensors. Neither S&P nor their third party licensors make any representation or warranty, express or implied, to the owners of the ETFs or any member of the public regarding the advisability of investing in securities generally or in the ETFs particularly or the ability of the S&P Developed Ex-U.S. LargeCap Index to track general stock market performance. S&P and their third party licensor's only relationship to IDG is the licensing of certain trademarks, service marks and trade names of S&P and/or their third party licensors and for the providing of calculation and maintenance services related to the Index. Neither S&P nor their third party licensors are responsible for and have not participated in the determination of the prices and amount of the ETFs or the timing of the issuance or sale of the ETFs or in the determination or calculation of the equation by which the ETFs are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the ETFs. S&P and its subsidiaries are not investment advisors. Inclusion of a security or futures contract within an index is not a recommendation by S&P or its subsidiaries to buy, sell, or hold such security or futures contract, nor is it considered to be investment advice.

NEITHER S&P NOR THEIR THIRD PARTY LICENSORS GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS OR COMPLETENESS OF THE S&P DEVELOPED EX US LARGE CAP INDEX OR ANY DATA INCLUDED THEREIN OR ANY COMMUNICATIONS, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATIONS (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P AND THEIR THIRD PARTY LICENSORS SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS OR DELAYS THEREIN. S&P ENTITIES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THEIR MARKS, THE S&P DEVELOPED EX-U.S. LARGE CAP INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P INDICES ENTITIES OR THEIR THIRD PARTY LICENSORS BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE.
